Kathmandu, Nepal

Math Teaching Assistant

Jan 2022 – Aug 2022

- Honed time management skills through balancing tutoring responsibilities with coursework demands.
- Provided comprehensive assistance in understanding math concepts, ensuring clarity for students.
- Demonstrated leadership by serving as a reliable resource for peers and juniors seeking academic support.

## PROJECTS

### Personal Portfolio Website:

- Designed and developed a personal portfolio website to showcase my academic achievements, projects, and skills.
- Utilized HTML, CSS, and JavaScript to create an interactive and visually appealing user experience.
- Used and utilize GitHub repository to publish the website
- Link: [https://utsav-345.github.io/Utsav\\_Portfolio/](https://utsav-345.github.io/Utsav_Portfolio/)

### OOTD (Outfit of the Day):

- Developed a fully functional AI-powered OOTD (Outfit of the Day) fashion application during the AI-ATL Hackathon with my teammates.
- We were able to leverage OpenAI's DALL-E 3 to generate personalized fashion trend images and outfit recommendations.
- Integrated the Nlx.ai conversational AI platform to provide automated customer support and styling assistance.
